

## The gifted child in the classroom: from quantitative to qualitative education

We are inviting two teachers to the training of the international GATE project's Associate Partner Schools!

**18 April, 13:00-16:00**

### 1. Educating gifted children in Lithuania and Israel. Challenges and opportunities.

*Rūta Kuodienė, coordinator of the VMU ŠA GIFTED Centre in Kaunas, co-author of the textbooks.*

### 2. Stereotypes accompanying gifted children.

*Rūta Kuodienė, coordinator of the VMU ŠA GIFTED Centre in Kaunas, co-author of the textbooks.*

**20 April, 13:00-16:00**

### 3. Methods of determining personality type.

*Rasa Kirkaitė, Associate Professor of Partnership at VMU ŠA GIFTED Centre*

### 4. The Robinson Crusoe method - an opportunity for integration and experiential education.

*VMU ŠA GIFTED Centre Partnership Associate Professor Kornelija Giedrikaitė*

**25 April, 13:00-16:00**

### 5. Towards Creativity. Creative Teacher and Student.

*VMU ŠA GIFTED Centre teacher Nida Juozaitienė, “eMundus” Director, GATE project manager Vida Drąsutė.*

### 6. Using Artificial Intelligence and Augmented Reality in the Education of Gifted Children.

*Laima Daukšytė-Koncevičienė, analyst of eMundus, associate professor of partnership of the GIFTED Centre of VMU ŠA; Gediminas Grėsius, analyst of eMundus, methodological teacher of KJPVM*

As practice in Lithuania and Israel shows, working with gifted children requires extra effort and courage from the teacher.

In the training, a team of lecturers will share their experience in identifying and educating gifted children, and present examples of how to realise the potential of gifted children.

We invite you to learn about the educational approaches - quantitative and qualitative - and discuss which one is the most appropriate for the education of gifted children and why.

**Registration is required:**
